

1. Create Facebook developers account [Facebook for Developers](#).
2. If you are not logged in, click on **Log in**.

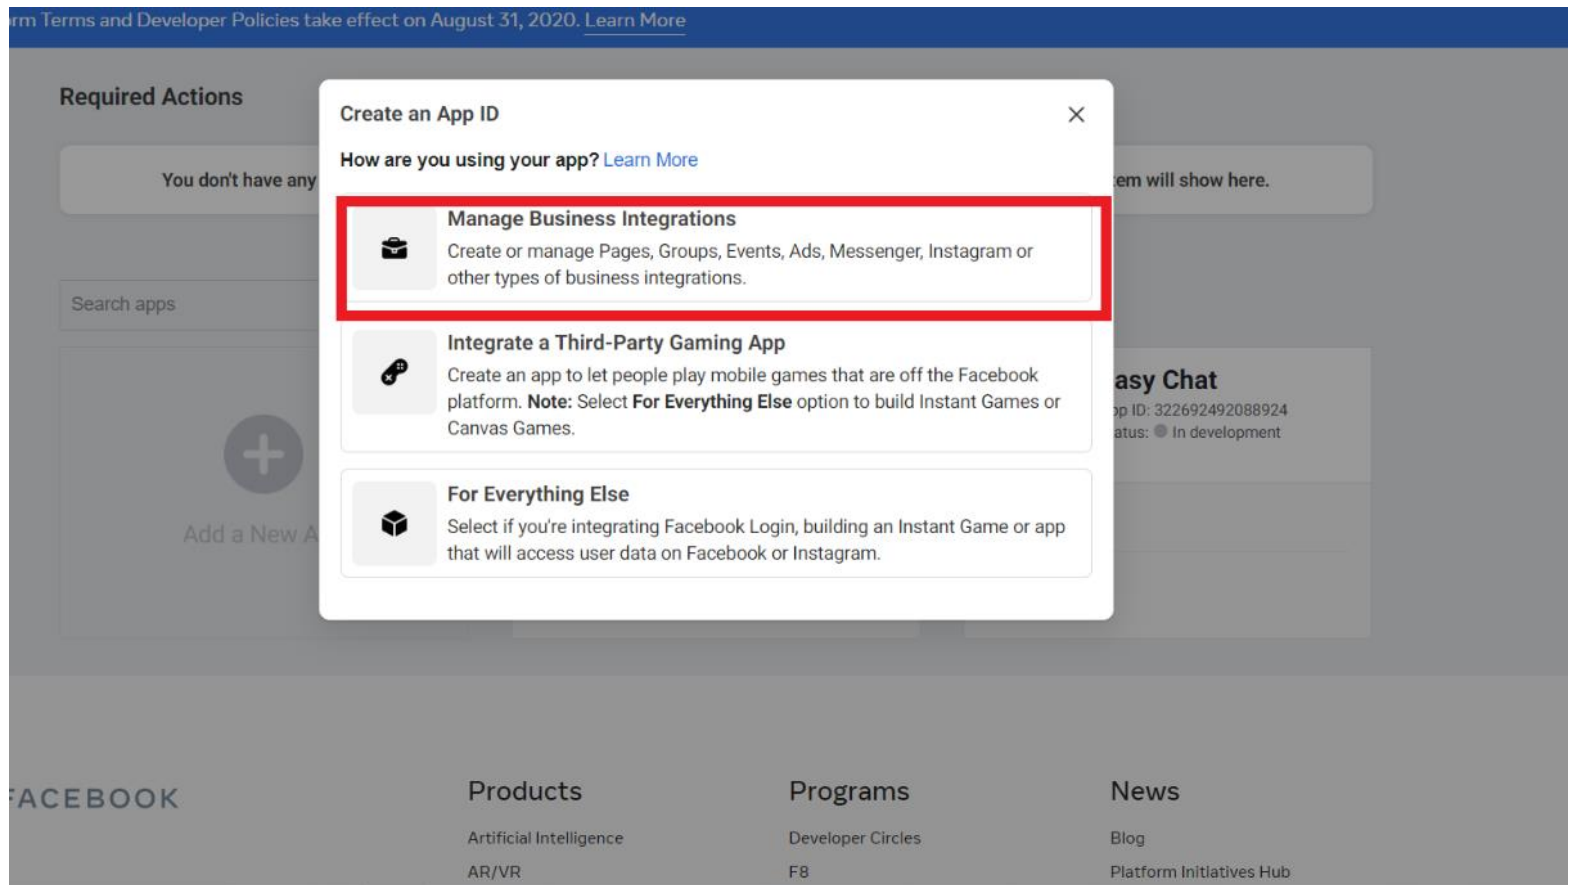

3. After login, screen will be redirected to Following sccreen. Click on **My Apps**.

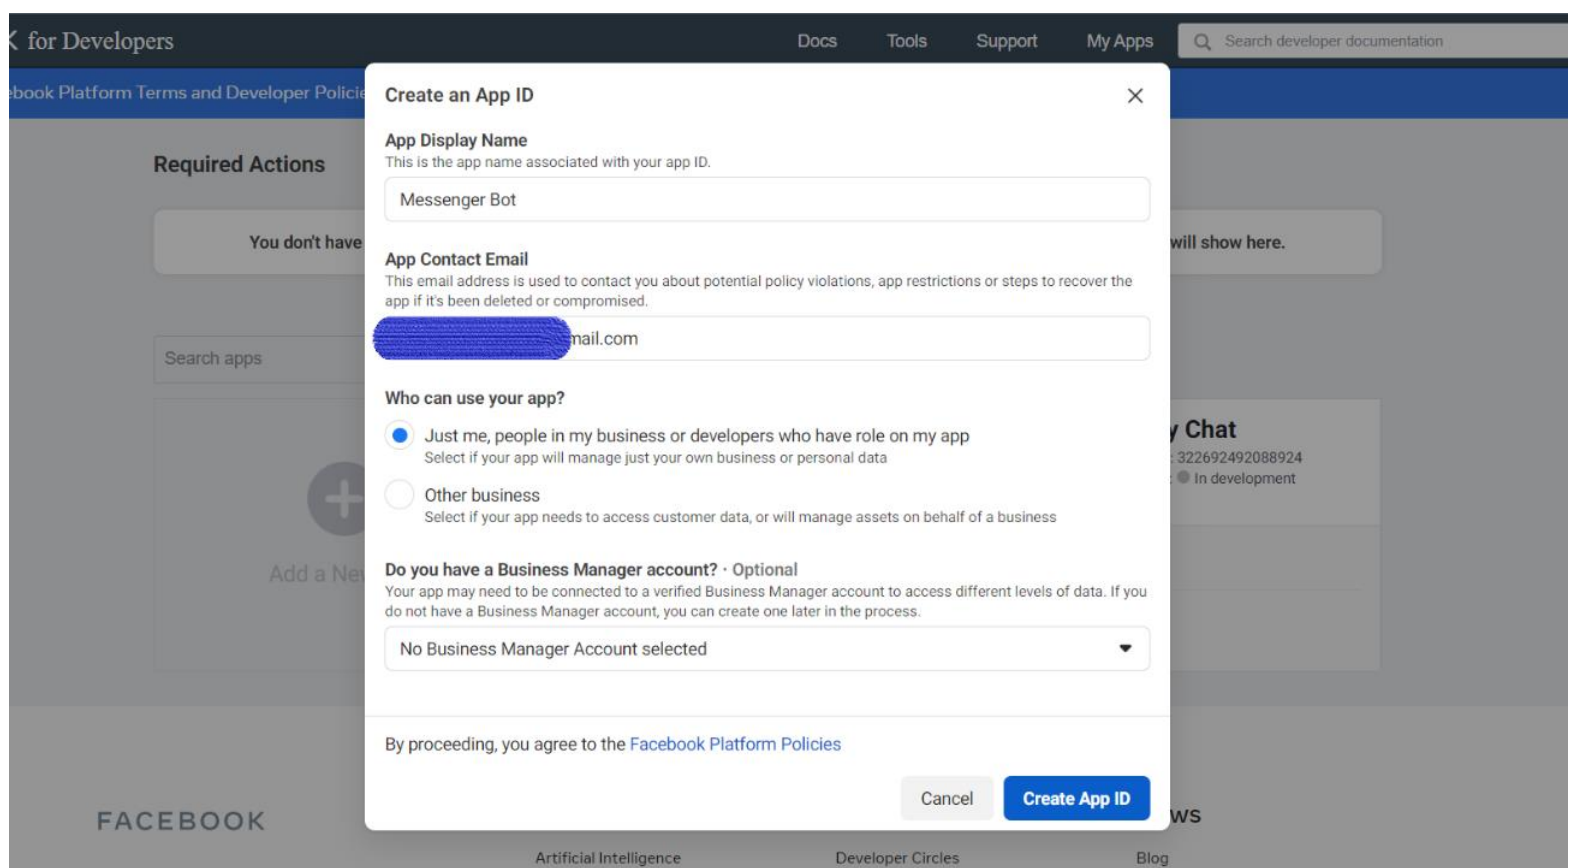

4. Click on Add a New App.

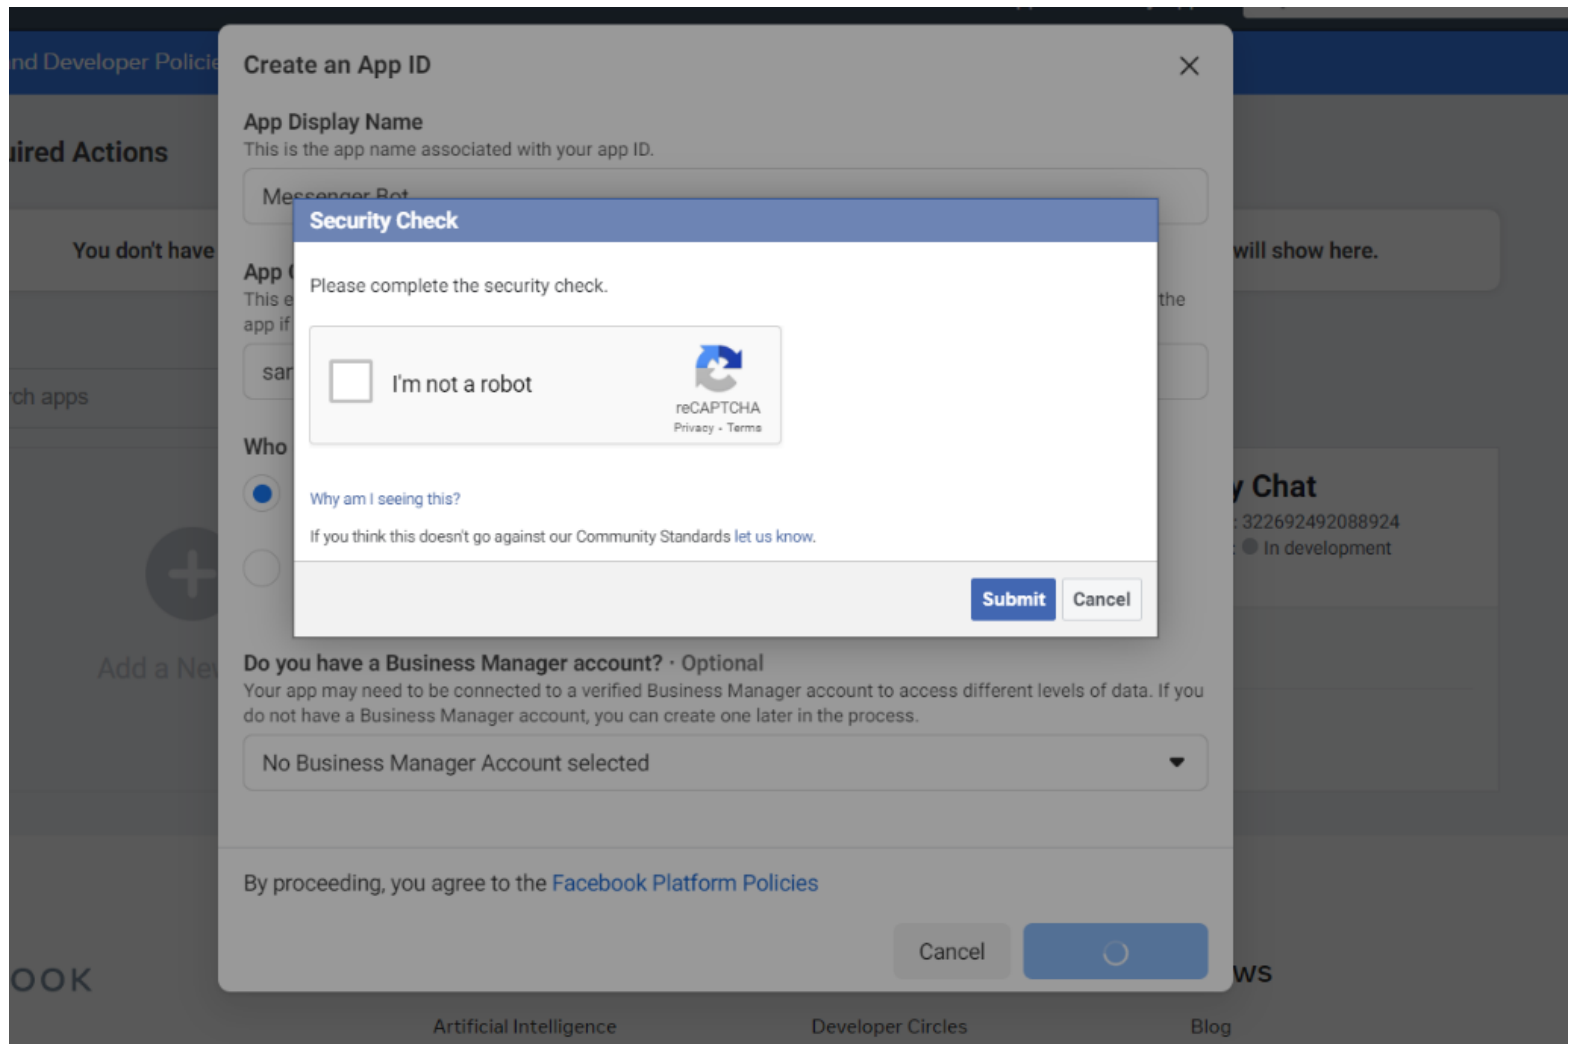

5. Click on **Manage Business Integration**.

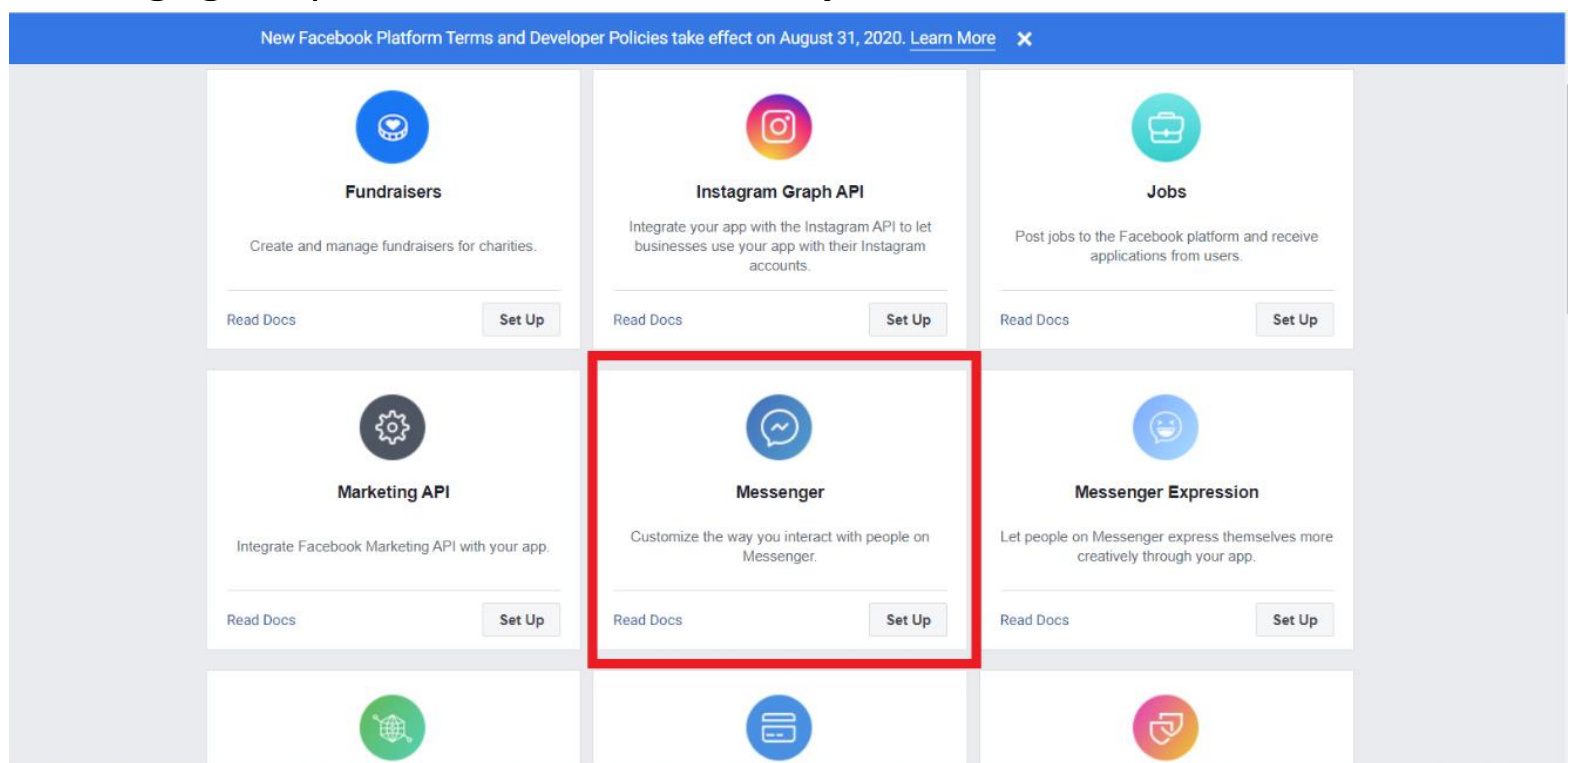

6. Fill this form and submit.

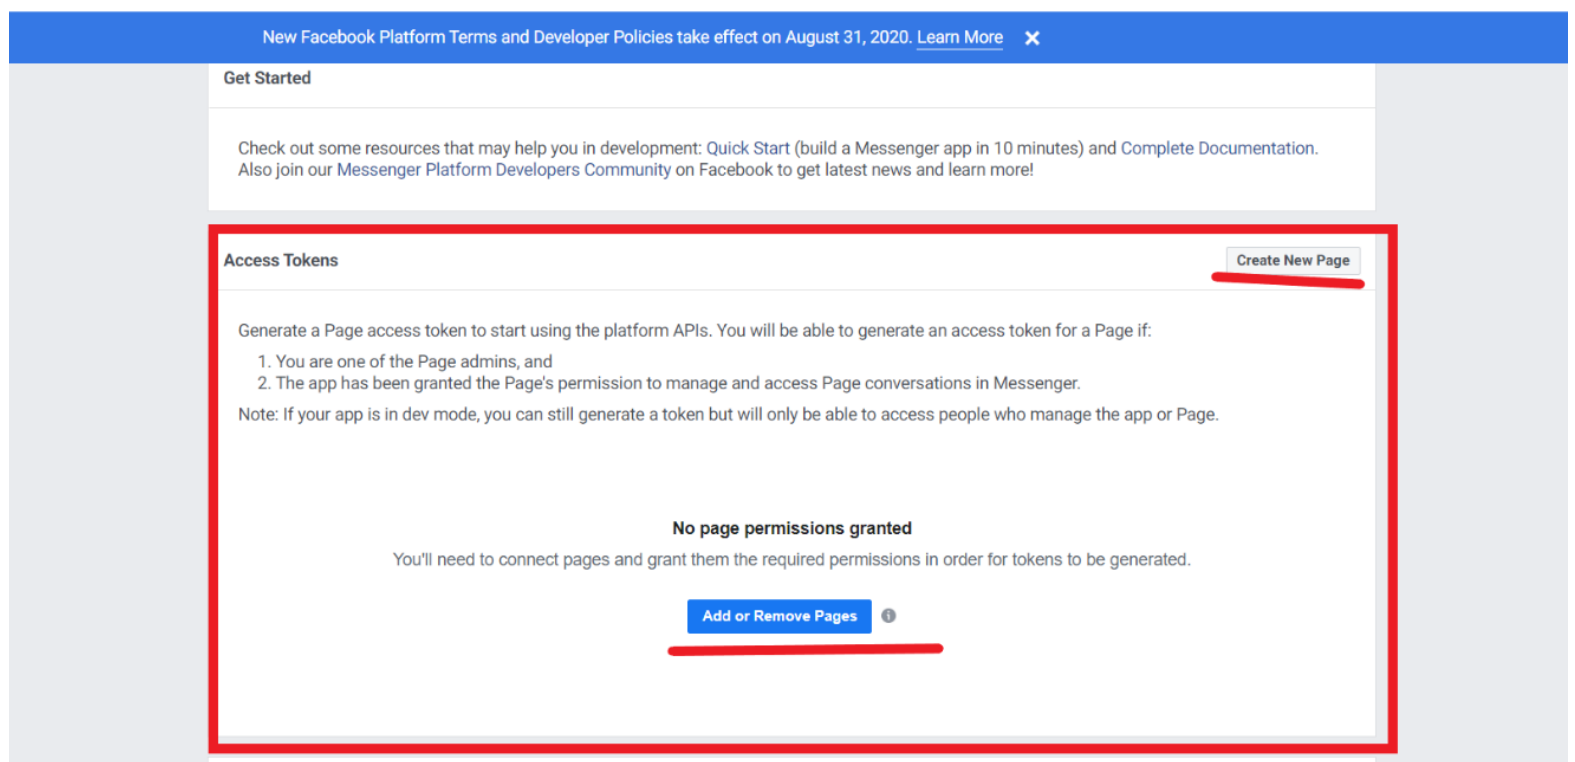

7. Complete this test.

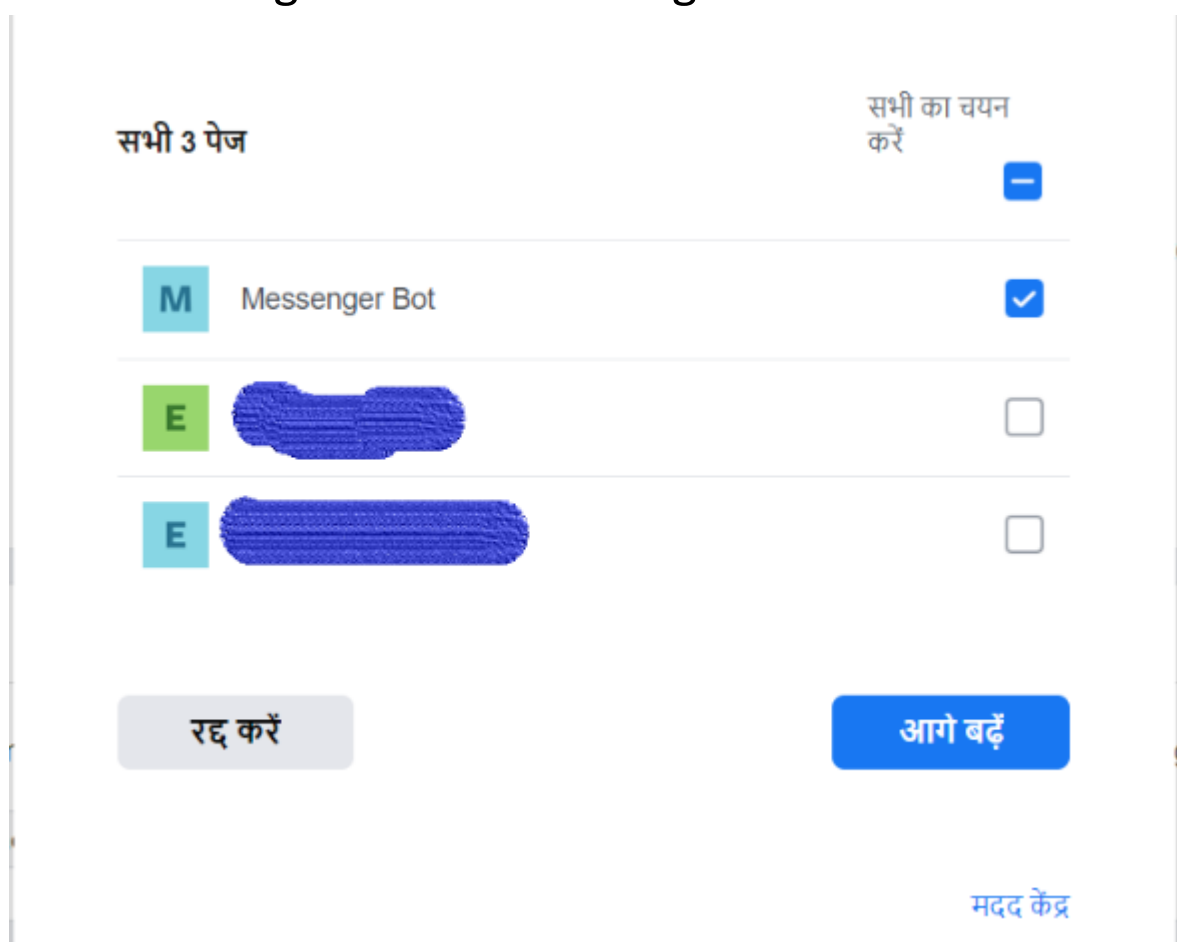

8. Page will be redirected to **type of apps** page. Search for messenger option and click on **Set Up**.

9. Page will be redirected to configuration page. Search the **Access Token** section.

10. If you don't have any facebook page, click on **Click New Page** and create a page.
11. If you already have a page (or after creating page page will be redirected here), click on **Add or Remove Page**.
12. After click, confirmation page will pop up. Confirm the submission. And a new popup will appear. Select the page you want to integrate with messenger.

13. New popup will appear for App to get access of select app. Click **Complete** and confirmation page will open. Click OK.
14. Page will be redirected on configuration page. Search for this section. Highlighted numerical string is **Page ID**. Save it for latter use (point 24). Click on **Generate Token**.

Generate a Page access token to start using the platform APIs. You will be able to generate an access token for a Page if:

1. You are one of the Page admins, and
2. The app has been granted the Page's permission to manage and access Page conversations in Messenger.

Note: If your app is in dev mode, you can still generate a token but will only be able to access people who manage the app or Page.

Webhooks

To receive messages and other events sent by Messenger users, the app should enable webhooks integration.

[Add Callback URL](#)

15. Click **I Understand** and copy the string. This is **Access Token**. Save it for later use (point 24).

App ID: 1613441458817089 In development App Type: Business

Token Generated

 Messenger Bot
102904628196972

To protect your security, ONLY share this token with app developers you trust.

This token will only be shown once, so keep it safe. If it gets lost, you'll need to create a new one. Anyone could potentially use this token to impersonate this page, depending on the privacy settings of your app. If you wish to revoke all previously generated tokens from a page, you can remove this page from the app using the button below the table.
